Subject Index

Anaemia, aplastic, following successful treatment of malignant epithelial tumours with radiation and/or chemotherapy (LISHNER & CURTIS), 416
Anaemia, aplastic, patients and normal controls, effect of antilymphocyte globulin on bone marrow T/non-T cells from (TONG *et al*), 546
Anaemia, Fanconi aplastic, lithium therapy in (BARRIOS *et al*), 422
Anaemia patients, severe aplastic, treated with antithymocyte globulin, long-term follow-up of (DE PLANQUE *et al*), 121
Anaemia, pregnancy associated aplastic: a report of five cases and review of current management (AITCHISON *et al*), 541
Anaemia, severe aplastic, cyclosporin A versus antilymphocytic globulin in (MARIN *et al*), 285
Antibodies, anti-Br^a, in the French population (BIERLING *et al*), 428
Anticardiolipin antibodies and lupus anticoagulants comprise separate antibody subgroups with different phospholipid binding characteristics (MCNEIL *et al*), 506
Antigen, a human macrophage-associated (CD68), detected by six different monoclonal antibodies (MICKLEM *et al*), 6
Aplasia, pure red cell, in association with virus associated haemophagocytic syndrome (HANADA *et al*), 570

B-CLL, lack of correlation between cell surface activation antigen expression and clinical stage in (BARNETT & REILLY), 572
Bepridil protects sickle cells against the adverse rheological effects of cyclical deoxygenation (JOHNSTON *et al*), 522
Bleeding time, blood groups and von Willebrand factor (CAEKEBEKE-PEERLINCK *et al*), 217
Bone marrow culture, human liquid, in serum-free medium (DROUET *et al*), 143
Book reviews
Blood Substitutes, 434
Bone Marrow Transplantation: Current Controversies, 582
Clinical Practice of Transfusion Medicine, 582
Modern Blood Banking and Transfusion Practices, 583
Platelets: Receptors, Adhesion, Secretion, 434
Transfusion Medicine, 582

cALL relapse after allogeneic BMT, a case of: recurrence of recipient cell origin, initially determined as being that of donor cell origin by sex chromosome analysis (NAOE *et al*), 420
CFU-S and *in-vitro* CFC in femora of mice of different ages, the development of spatial distributions of (MASON *et al*), 455
Chimaerism following allogeneic bone marrow transplantation: detection of residual host cells using the polymerase chain reaction (LAWLER *et al*), 205
Chromosome, ζ- and $\theta 1$ gene deletions located on the same (BALLAS *et al*), 429
Cytarabine, high-dose, hypersensitivity reaction to (WILLIAMS & LARSON), 274
Cytokine activity after human bone marrow transplantation. III. Defect in IL2 production by peripheral blood mononuclear cells is not corrected by stimulation with Ca^{++} ionophore plus phorbol ester (COOLEY *et al*), 341
Cytotoxicity, monoclonal antibody dependent cell mediated, enhancement by IL2 and GM-CSF (BIANCHI *et al*), 468

Dermatosis, acute febrile neutrophilic (Sweet's syndrome) in association with myelodysplastic syndromes: a report of three cases and a review of the literature (SOPPI *et al*), 43
Desferrioxamine ototoxicity: evaluation of risk factors in thalassaemic patients and guidelines for safe dosage (PORTER *et al*), 403
Diabetic patients, insulin-dependent, the effect of near-normoglycaemic control on plasma levels of coagulation factor VII and the anticoagulant proteins C and S in (SCHERNTHANER *et al*), 356
Diamond-Blackfan anaemia, an intrinsic progenitor defect in (TSAI *et al*), 112
Down's syndrome, ultrastructural and ultracytochemical differences between transient myeloproliferative disorder and megakaryoblastic leukaemia in (EGUCHI *et al*), 315

Eosinophils, ring, in humans, the significance of (KWAN *et al*), 579
Erythroblastopenia of childhood, transient, due to human parvovirus B19 infection (WODZINSKI & LILLEYMAN), 127
Erythrocytes (Inab phenotype) with a deficiency of DAF (decay accelerating factor), studies on the sensitivity to complement-mediated lysis of (MERRY *et al*), 248
Erythrocytes in recombinant human erythropoietin-administered normal rat, rheological properties of (MAEDA *et al*), 105
Erythrocytes, nondiscocytic, blood from healthy animals and humans contains (SIMPSON), 561
Erythroleukaemia cell line, human (HEL), demonstration of TSP receptor on the cell-surface of (IMAMURA *et al*), 430
Erythroleukaemia cells, mouse, inhibition of cellular iron uptake by haem in (HRADILEK & NEUWIRT), 410
Erythroleukaemia cells, murine, the rapid and decremental change in haem oxygenase mRNA during erythroid differentiation of (FUJITA *et al*), 557
Erythropoietin in serum, an immunological cross-reactant of, which may invalidate EPO radioimmunoassay (COTES *et al*), 265

Factor VIII activity and antigen, coagulant, secretion of, by *in vitro* cultivated rat liver sinusoidal endothelial cells (HELLMAN *et al*), 348
Factor XIII concentrate, placental, effect of pasteurization on (COTTER *et al*), 574

Gammopathies, monoclonal, and 'lupus-like' anticoagulants, study of three patients with (BELLOTTI *et al*), 221
Glanzmann's thrombasthemia, decreased stability and structural heterogeneity of the residual platelet glycoprotein IIb/IIIa complex in a variant of (MODDERMAN *et al*), 514
Graft-versus-host disease, chronic, histocompatibility antigen DR4 is associated with, in the South Wales population (HOLMES & WHITTAKER), 424

Haemoglobin, blood, decline in the aged: a longitudinal study of an urban Swedish population from age 70 to 81 (HABOUBI *et al*), 134
Haemoglobinuria, paroxysmal nocturnal, prolongation of red-cell life-span by incorporation of decay-accelerating factor into red cells of (NINOMIYA *et al*), 132
Haemophagocytic syndrome treated with cyclosporin A: a T cell disorder? (OYAMA *et al*), 276
Haemophilia A, multiple XbaI polymorphisms for carrier detection and prenatal diagnosis of (CHAN *et al*), 497
Hb Lepore (Boston) defect, detection and characterization of the, by the polymerase chain reaction (LINDEMAN *et al*), 566
Hereditary spherocytosis, decreased amount of the Rh antigen D in (SZYMANSKI *et al*), 537
HIV^+ patients, multilobated nuclei in peripheral blood lymphocytes from (JUNCÀ *et al*), 275
Human immunodeficiency virus infection in a haemophilic cohort, the natural history of (LEE *et al*), 228

Idiopathic thrombocytopenic purpura, acute childhood, IgG and IgM antibodies to platelet membrane glycoprotein antigens in (WINIARSKI), 88
Immunohistology for quantification of normal bone marrow lymphocyte subsets (THALER *et al*), 576
Interferon alpha-2b therapy in adult chronic thrombocytopenic purpura (ITP) (BELLUCCI *et al*), 578

Lassa fever, severe, plasma from patients with, profoundly modulates f-met-leu-phe induced superoxide generation in neutrophils (ROBERTS *et al*), 152
Leukaemia, acute lymphoblastic, biological and clinical features of, with cytoplasmic granules or inclusions: description of eight cases (CANTÙ-RAJNOLDI *et al*), 309
Leukaemia, acute lymphoblastic, childhood, the use of DNA probes to monitor minimal residual disease in (KATZ *et al*), 173
Leukaemia, acute myeloblastic, apparent removal of graft-versus-leukaemia effect by the use of leucocyte-poor blood components in patients with (TUCKER *et al*), 572
Leukaemia, acute myelogenous, following exposure to microwaves (ARCHIMBAUD *et al*), 272
Leukaemia, acute myeloid, diagnostic and prognostic significance of myelomonocytic cell surface antigens in (MERLE-BERAL *et al*), 323
Leukaemia, acute myeloid, high serum interleukin-2 levels in, are associated with FAB M4 and M5 subtypes (CIMINO *et al*), 431
Leukaemia, acute myeloid, IL-2 induces blast cell proliferation in some cases of: IL-2 and myelopoiesis (CARRON & CAWLEY), 168
Leukaemia, acute myeloid, with chromosomal rearrangement involving breakpoints on chromsomes 15 and 22: 46XY, t(15; 22)(q12;q13) (NG *et al*), 270
Leukaemia, CD7 positive acute myeloid: a subtype associated with cell immaturity (LO COCO *et al*), 480
Leukaemia cells, acute undifferentiated, *in-vitro* differentiation of: surface marker and colony-formation analysis (GOUYOTAT & CAMPOS), 280
Leukaemia, chronic granulocytic, long-term survival in (LAMY *et al*), 279
Leukaemia, chronic granulocytic, mechanism of action of α interferon in: evidence for preferential inhibition of late progenitors (GALVANI & CAWLEY), 475
Leukaemia, chronic myelocytic, prevalence of monoclonal Ig with λ light chains in (GUGLIELMI *et al*), 331
Leukaemia, chronic myeloid, in chronic phase, autografting for patients with: peripheral blood stem cells may have a finite capacity for maintaining haemopoiesis (BRITO-BABAPULLE *et al*), 76
Leukaemia, chronic myeloid, slow evolution of, relapsing after BMT with T-cell depleted donor marrow (HUGHES *et al*), 462
Leukaemia, *de novo* acute myeloid, cytogenetics and their prognostic value in: a report on 283 cases (FENAUX *et al*), 61
Leukaemia, hairy cell, serum levels of soluble interleukin-2 receptor in: a reliable marker of neoplastic bulk (AMBROSETTI *et al*), 181
Leukaemia, Ph-positive chronic myelogenous, clonal B lymphocytes lack bcr rearrangement in (FERRARIS *et al*), 48
Leukaemic relapse after allogeneic bone marrow transplantation, the effect of total body irradiation dose and chronic graft-versus-host disease on (FRASSONI *et al*), 211
Leukaemia, stage C chronic lymphocytic, long-term results of the CHOP regimen in (FRENCH COOPERATIVE GROUP ON CHRONIC LYMPHOCYTIC LEUKAEMIA), 334
Lupus anticoagulant, laboratory identification of (TRIPLETT & BRANDT), 139
Lymphadenopathy, fatal angioimmunoblastic, polyclonal rearrangements of the T-cell receptor β-chain in (KNECHT *et al*), 491
Lymphocyte transformation, mitogen-stimulated human, acetylaldehyde-modified serum proteins inhibit (WICKRAMASINGHE & BARDEN), 23
Lymphocytosis, chronic T-cell, and neutropenia, inhibition of CFU-GU by prostaglandins in a case of (SMITH *et al*), 148
Lymphoid and non-lymphoid disorders cluster in different break points: depletion of 7p (PEDERSEN *et al*.), 281
Lymphoid cells, human T and B, identification of H- and L-ferritin subunit binding sites on (ANDERSON *et al*), 260
Lymphoma, adult poor prognosis lymphoblastic, in first complete remission, bone marrow transplantation for (MILPIED *et al*), 82
Lymphoma, true histiocytic: histopathologic, immunophenotypic and genotypic analysis (HANSON *et al*), 187
Lymphoproliferative disorders, magnetic resonance imaging of bone marrow in: correlation with bone marrow biopsy (DÖHNER *et al*), 12
Megakaryocytes, human, isolation by immunomagnetic beads (TANAKA *et al*), 18
Megakaryopoiesis, abnormal, in patients with myelodysplastic syndromes: analysis of cellular and humoral defects (GEISSLER *et al*.), 29
Methylprednisolone, high dose intravenous, for acquired aplastic anaemia, Diamond-Blackfan syndrome and aregenerative anaemias (ÖZSOYLU), 432
Myelodysplasia, acute, with myelofibrosis, abnormal calcium transport of acanthocytes in (OHSAKA *et al*), 568
Myelodysplasia and acute myeloid leukaemia following bone marrow transplantation for acute lymphoblastic leukaemia: secondary leukaemia or stem-cell relapse? (BRITO-BABAPULLE *et al*), 417
Myelodysplastic syndrome, elevated red cell adenosine deaminase and haemolysis in a patient with a (VAN DER WEYDEN *et al*), 129
Myelodysplastic syndrome with abnormal chromatic clumping in leucocytes, a case of (VARMA *et al*), 135
Myelodysplastic syndromes, absence of rearrangement of proto-oncogene MET in 88 cases of (COLLYN-D'HOOGHE *et al*), 40
Myelodysplastic syndromes and Sweet's syndrome: a report of three cases and a review of the literature (SOPPI *et al*), 43
Myelodysplastic syndromes, circulating erythropoietin in patients with (JACOBS *et al*), 36
Myelodysplastic syndromes, regulatory abnormalities in the marrow of patients with (MERCHAV *et al*), 158
Myelofibrosis and myeloma, the intimate relationship of: effect of therapy (HUMPHREY & MORRIS), 269
Myelofibrosis in primary myelodysplastic syndromes (DEL POTRO *et al*), 281
Myelofibrosis, primary, allogeneic bone marrow transplantation for (IFRAH *et al*), 575
Myelofibrosis with myeloid metaplasia, prognostic classification of (DUPRIEZ *et al*), 136
Myeloma, human multiple, immunoglobulin gene rearrangements in (ZACCARIA *et al*), 425
Myeloma, human multiple, no preferential use of the VH(V) family in (CLOFENT *et al*), 486
Myeloma, human, two cell lines, amylase-producing KMS-12-PE and amylase-non-producing KMS-12-BM, were established from a patient, having the same chromosome marker, t(11;14)(q13;q32) (OHTSUKI *et al*), 199
Myeloma, multiple, patients, clonal rearrangement of immunoglobulin genes in the peripheral blood of (BERENSON *et al*), 425
Myeloma patients, multiple, detection of monoclonal B lymphocytes in bone marrow and peripheral blood of, by immunoglobulin gene rearrangement studies (VAN RIET *et al*), 289
Myeloma, suspected, *in situ* hybridization detection of light chain mRNA in routine bone marrow trephines from patients with (AKHTAR *et al*), 296
Myeloma, vitamin D metabolism in (LAWSON-MATTHEW *et al*), 57
Myelopoiesis and IL-2: IL-2 induces blast cell proliferation in some cases of acute myeloid leukaemia (CARRON & CAWLEY), 168
Myeloproliferative disorders, platelet membrane abnormalities in: decrease in glycoproteins Ib and IIb/IIIa complex is associated with deficient receptor function (MAZZUCATO *et al*), 369

P. falciparum malaria, antibody-dependent red cell removal during: the clearance of red cells sensitized with an IgG anti-D (LEE *et al*), 396
Phospholipase C, the effect on plasma factor VII (HUBBARD & PARR), 360
Protein S deficiency, 'type II' inherited, a new case of (CHAFA *et al*), 501
Purpura, cyclic idiopathic pure acquired amegakaryocytic thrombocytopenic: a patient treated with cyclosporin A (TELEK *et al*), 128
Purpura, HIV-related thrombocytopenic, immunochemical analysis of platelet autoantibodies in: a study of 68 patients (BETTAIEB *et al*), 241
Pyrimidine 5'-nucleotidase in human erythrocytes, a spectrophotometric method for the assay of (AMICI *et al*), 392

Ras gene mutations, co-incident N and K, in a case of AML, restricted to differing cell lineages (HIORNS *et al*), 165
Red blood cell aggregation and sedimentation: the role of the cell shape (REINHART *et al*), 551
Red cell glycolytic intermediates in normal, anaemic and transfused human fetuses (LESTAS *et al*), 387
Reticulocytes, effect of exchange transfusion of, on *in vitro* and *in vivo* intestinal iron (Fe^{3+}) absorption in mice (RAJA *et al*), 254
Rh D-associated epitopes in human and animal tissues, detection of using human monoclonal anti-D antibodies (THORPE), 527

Surface antigen expression of human immunoglobulin-secreting cells, analysis of: phenotypic heterogeneity in normal counterparts of myeloma cells (TOMINAGA *et al*), 302
Sweet's syndrome in association with myelodysplastic syndromes: a report of three cases and a review of the literature (SOPPI *et al*), 43

T-cell lymphomas, characterization of neoplastic and reactive cells in, with cytogenetic, surface marker, and DNA methods (LINDHOLM *et al*), 68
T cell receptor $\gamma\delta$: current state of knowledge and potential clinical applications in haematology (MACINTYRE & SIGAUX), 2
Thalassaemia, alpha, in India (DASH), 283
Thalassaemia, alpha, in a southern Spanish population (DE LAS NIEVES *et al*), 282
Thalassaemia, Indian $\delta\beta$-, the DNA deletion in an, begins one kilobase from the $^{A}\gamma$ globin gene and ends in an L1 repetitive sequence (MISHIMA *et al*), 375
Thrombocytopenia, disease-related immune, autoantibodies to platelet glycoproteins in patients with (BERCHTOLD *et al*), 365
Thrombocytopenia, heparin-induced: mechanism of interaction of the heparin-dependent antibody with platelets (CHONG *et al*), 235
Thrombocytopenia, post-transfusion (HART *et al*), 284
Thrombosis, splanchnic venous, in a 34-year-old woman, association of congenital protein C deficiency and latent myeloproliferative disease as cause of (DE STAFANO *et al*), 565
Transfusion response to HLA-selected apheresis donor platelets in patients refractory to random platelet concentrates, factors influencing (MCFARLAND *et al*), 380
Tyrosine protein kinase activity in normal and leukaemic human blood cells (PUNT *et al*), 51

Vasculitis, leucocytoplastic, during GM-CSF therapy (KLUIN-NELEMANS *et al*), 419
von Willebrand factor, binding to glycoproteins Ib and IIb/IIa complex: affinity is related to multimeric size (FEDERICI *et al*), 93
von Willebrand factor, bleeding time and blood groups (CAEKEBEKE-PEERLINCK *et al*), 217
von Willebrand factor, comparison of the *in vitro* characteristics of, in British and commercial factor VIII concentrates (LAWRIE *et al*), 100
von Willebrand factor, IIB, in normals and in IIB von Willebrand's disease patients, different platelet binding sites are probably involved in spontaneous platelet aggregation induced by (CASONATA *et al*), 133
